

How to disable Multiple Windows in Optimum

Overview:

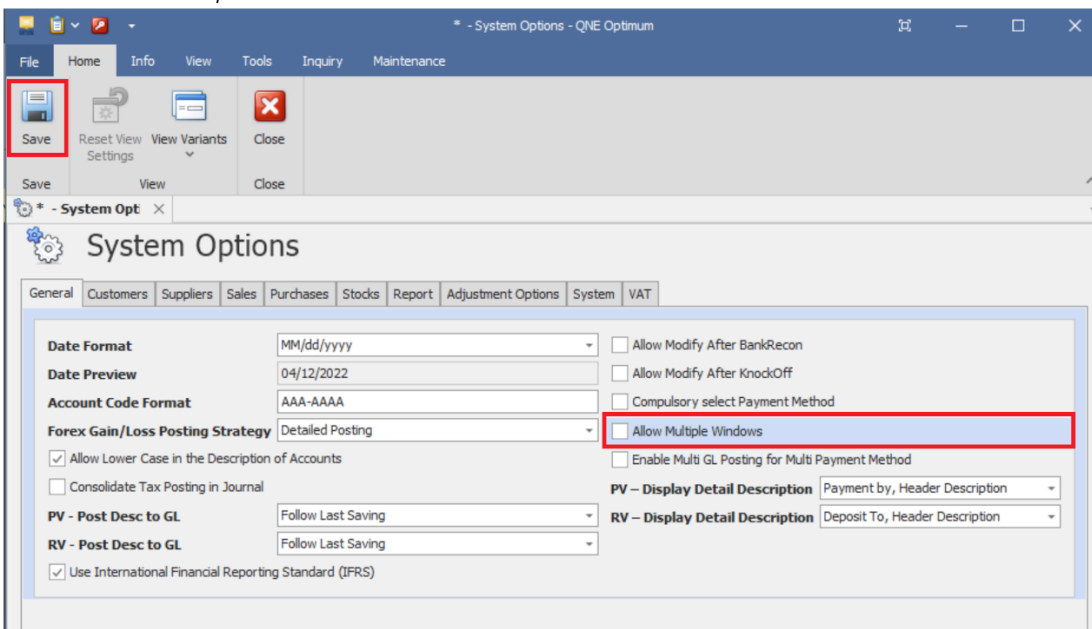

In QNE Optimum, there is an option wherein multiple Windows or multiple Tabs of the same transaction form can be disabled. This is commonly used for users who don't want to deal and easily got confused with multiple transactions or window being opened.

Procedure:

1. Go to Maintenance > System Options

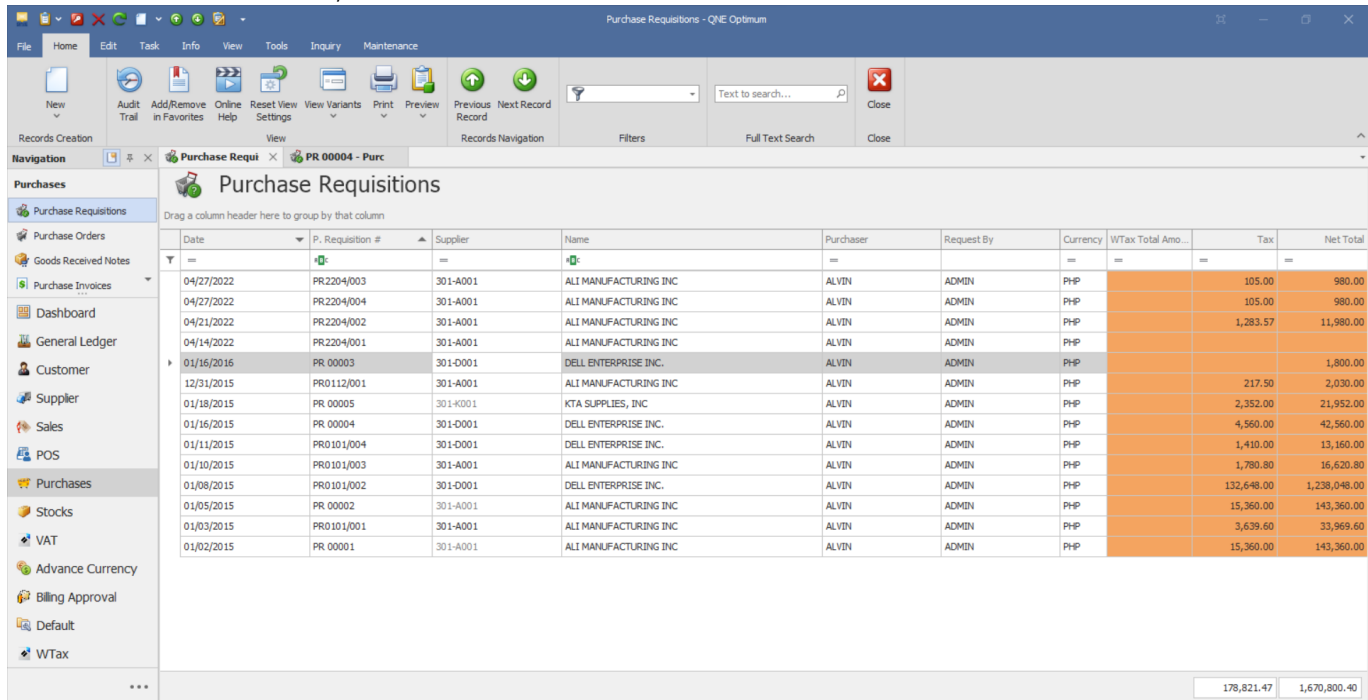

2. Untick *Allow Multiple Windows* and click *Save*

Application:

Go to any transaction forms e.g. Purchase Requisition, PR List View will show. Open one PR document (PR 00004), then try to select another document (PR 00003). Notice that even document is clicked many times, the system will not display the transaction. It is because currently there is an existing opened Purchase Request document.

Previous document window/tab must be closed to be able to view another document.

The screenshot shows the 'Purchase Requisitions - QNE Optimum' window. The left sidebar contains a navigation menu with options like Purchase Requisitions, Purchase Orders, Goods Received Notes, Purchase Invoices, Dashboard, General Ledger, Customer, Supplier, Sales, POS, Purchases, Stocks, VAT, Advance Currency, Billing Approval, Default, and WTax. The main area displays a table of Purchase Requisitions with columns: Date, P. Requisition #, Supplier, Name, Purchaser, Request By, Currency, WTax Total Amo..., Tax, and Net Total. The table lists various transactions from 2015 to 2022, including suppliers like ALI MANUFACTURING INC, KTA SUPPLIES, INC, and DELL ENTERPRISE INC. At the bottom right, summary totals are shown: 178,821.47 and 1,670,800.40.

Date	P. Requisition #	Supplier	Name	Purchaser	Request By	Currency	WTax Total Amo...	Tax	Net Total
04/27/2022	PR2204/003	301-A001	ALI MANUFACTURING INC	ALVIN	ADMIN	PHP		105.00	980.00
