

How to Allow Editing of Sub-items within the Bundle

Problem Scenario:

Bundled Item is used to grouped several items together (sub-items) and sold it as a single unit for one price. However, there are instances that a certain Sales transaction may not use exactly the same items within the bundle. Thus, system has an option to allow modification of the set Bundled Item. It may be a replacement of another item, removal or adding a new item.

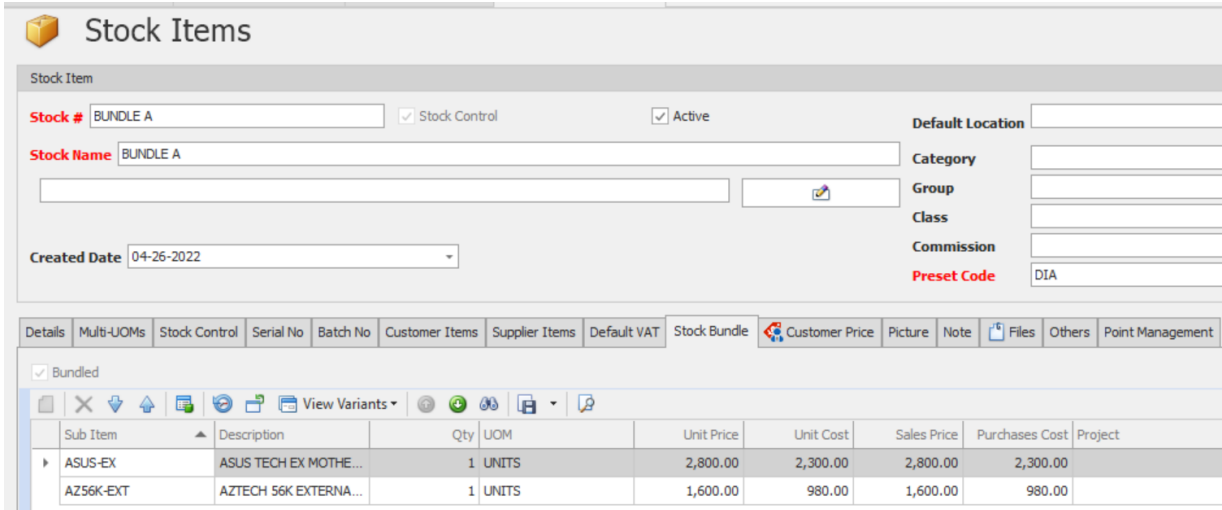

Procedure:

1. To allow editing of Bundled Item, go to Maintenance > System Options > Stocks. Tick Allow to Edit Stock Bundle.

How does it work?

Below is the existing setup of a sample Bundled Item.
