

How to Create, Edit and Delete a Stock Class

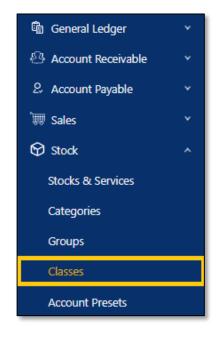

Overview:

Classes is a form that enables the user to maintain a type class or group aside from the Stock Category and Group that each of your stock items belongs to. Reports pertaining to inventory can be generated with the help of this function.

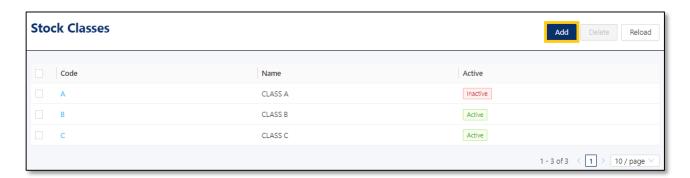

Procedure:

How to Create Stock Class

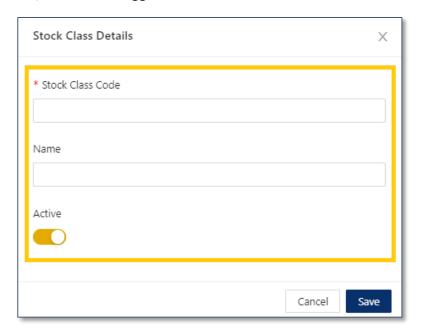

1. In Navigation pane, go to Stock > Classes

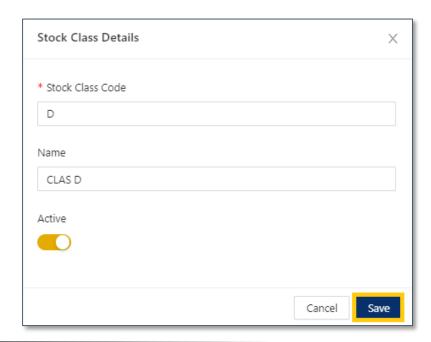

2. In Stock Class, click Add

- 3. Supply the fields with data;
 - Stock Class Code: This is a compulsory field with maximum of 20 alphanumeric length
 - Name: This is a compulsory field which you need to indicate the name of the Stock Class
 - Active: This is a function to set if an Area is still used. If an Area will not be used anymore, disable the toggle to make as Inactive.

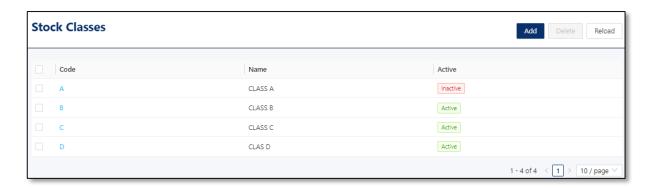

4. Once done, click Save

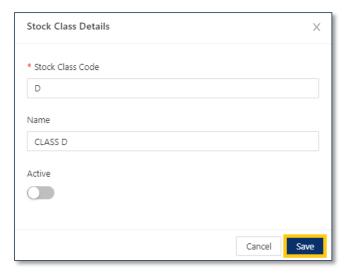

How to Edit Stock Class

1. In Stock Class List View, click *Code* to open.

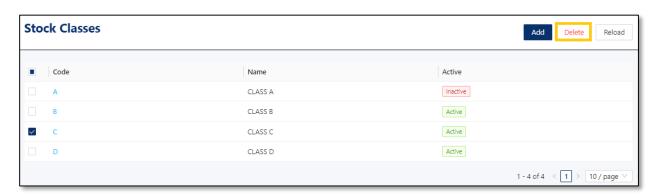

2. Apply necessary changes. Once done, click Save

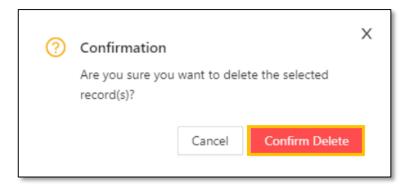

How to Delete Stock Class

1. In Stock Class List View, click *Delete* on the code

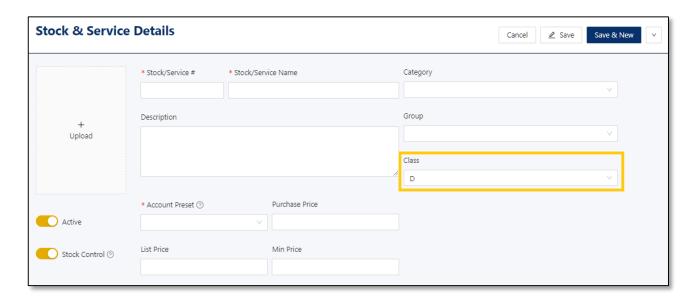

2. When the confirmation message prompted, click Confirm Delete

Application:

Class is now available for selection in Stock & Service Details
